

2017 PhD Studentship in Machine Learning for Computer Vision

Applications are invited for one funded PhD studentships/teaching fellowships in Information technology offered by the University of Naples Parthenope, within the Consortium of Italian Universities headed by University of Milan. Successful applicants will work in Machine Learning for Computer Vision at the [Computer Vision and Pattern Recognition Lab](#)

Potential applicants should **contact Prof. Alfredo Petrosino** at petrosino@uniparthenop.it to register an interest and discuss possible projects.

Applicants to the Ph.D. program in Information technology will have to demonstrate their high level of proficiency during undergraduate studies and their fluency in English.

Admission to the School is highly selective; applicants are therefore strongly advised to make sure that their application contains an exhaustive list of undergraduate courses they attended, including all grades and efforts in credits, as well as a brief résumé of their M.Sc. thesis. Applicants are also encouraged to describe in detail their research program, highlighting synergy with the research themes of the [Computer Vision and Pattern Recognition Lab](#) of University of Naples Parthenope.

Successful applicants are entitled to get a scholarship amounting to euros 16.350,00 (gross total) per year.

If an applicant selected to receive a scholarship fails to enrol, the scholarship will be assigned to the selected applicant following in the list. Information about the application procedure are in order:

All applicants must present their applications by **1 PM of 4 September, 2017**. All candidates must apply exclusively via the Servizi online SIFA facility available on the University website <http://www.unimi.it/ENG/admission/92328.htm>

Application is made by completing the following steps:

1. registering online on the University portal at the webpage – Accesso rapido – Servizi – Registrazione (<https://www.unimi.it/registrazione/registra.keb>). This operation is not required by those already registered on the portal or in possession of University access credentials (final year students or those who graduated from the University of Milan less than a year ago);
2. accessing (by means of access credentials) the SIFA online services at Servizi online SIFA – LOGIN (<http://www.unimi.it/apps/hpsifaprivata.xsl>);
3. submitting an admission application through the following steps: Servizi di ammissione – Ammissione ai corsi post laurea – Dottorati di ricerca (<http://studenti.divisi.unimi.it/ammissioni/a/dottorato/checkLogin.asp>);
4. paying a non-refundable fee of €50 (for selection costs) by credit card or using the MAV (only in Italy) form generated by the online service.

Admission to the PhD programmes is through a public selection procedure involving the evaluation of qualifications and tests for the comparative assessment of candidates. An Examining Committee set up and appointed in compliance with current regulations will carry out the procedure. Selection is intended to ascertain the qualifications, capacity and aptitudes of candidates for scientific research and their personal motivations. It is based on assessment of the CV, a research project, which may be inspired by the work of the second cycle degree thesis, and an interview. The research project, which should be based on a standard model ([D eclaration form](#)), is only for selection purposes and does not limit the choice of doctoral thesis in the case of admission.

For any further detail please refer to the document [Call for application](#) and/or contact Prof. A. Petrosino at **petrosino@uniparthenope.it**
